## Our Story

Over a decade ago, Eldis Bujones and Alejandro Gonzalez escaped the Communist Regime in Cuba to pursue the American Dream. With relentless hard work and persistence, they are now American Citizens that have built Tampa Bay's leading "Home Grown" Custodial Service Company. Certified by the City of Tampa and Hillsborough

County as MBE and SLBE, General Facility Care (GFC) has doubled in size each year, over the last 4 years. 7 years ago, GFC was a subcontractor and labor service provider to the area's larger contract custodial firms, but has now outgrown many of the firms it originally serviced. Our team is made up of seasoned industry

professionals that have built and run national companies together with local professionals that left competing firms to join us. Many of us were previously competitors. We are now United As One to build a company unlike any other. "The American Dream is Real... General Facility Care is Proof".
